# Highlights and news 2025

## An upgraded familiar favourite

Our popular Ridge hunting suit is now available in a new version. Ridge 3 features improved fit, smarter ventilation solutions, and upgraded weather protection. The new NeoNordic® 200 membrane replaces the previous NeoNordic® 100 and now offers twice the waterproof performance – with a water column of 20,000 mm. The suit is available in several colour options, including solid green, Desolve® Fire, Desolve® Veil, Desolve® Zero, and the combination pattern Desolve® Fire/Veil.

## Titan 2 - Advanced gear for demanding hunters

Titan is now available in a new version with several technical upgrades. The latest model features the NeoNordic® 300 membrane and a water column of 30,000 mm – our most advanced weather protection to date. Titan 2, in green, also introduces the highly durable Infinitec fabric, developed to withstand extreme wear over time.

With carefully considered details, rugged materials, and exceptional comfort, Titan 2 is built for hunters who demand the highest standards. Designed to perform in the toughest environments, season after season.

## Ultra - Made for everyday outdoors

The Ultra series is a broad collection designed for hunting, outdoor activities, and everyday use. This season's new additions include everything from the warming Ultra Thermo Overall and Ultra Coat Jacket to mid-layers and t-shirts – all selected to suit a wide range of situations. With a focus on function and simplicity, Ultra offers reliable comfort for life spent outdoors.

# OUR PRODUCT FAMILIES

## Titan

**Top collection in terms of function and comfort.**

The hunting jackets and trousers come with all the relevant features a top-level hunting item should have. Equipped with NeoNordic® membrane for breathability and waterproof protection. Our solid green jacket is made with Infinitec fabric, offering superior durability and a 5-year warranty. It also has stretch functions in all parts, which gives you excellent comfort.

## Ridge

**Our widest collection of hunting gear.**

Our Ridge series is made from a quiet, high-quality material. Many of our Ridge items are designed in Desolve® camouflage, which blends with the surroundings. In addition to our popular hunting gear, we offer a variety of accessories to complete the Ridge look.

## Crest

**For the classic hunter.**

Our Crest Booster jacket and trousers are now equipped with NeoNordic®-membrane. Crest Rain Set and Crest Rain Poncho are the latest additions to the Crest series.

## Meadow

**High-quality collection for women.**

The jacket and trousers are designed with flexible and lightweight materials that ensure high breathability. Also wind- and waterproof with NeoNordic® membrane. Our hunting tights offer excellent comfort and are also treated with Antibite™ for protection against bugs and ticks.

## Ultra

**A wide collection for hunting and active life.**

The Ultra series is a broad collection designed for all-around use. With garments suited for everything from hunting to outdoor activities and daily wear, it provides function and comfort for a range of situations.

## Alpha

**For active hunters.**

Our Alpha series is equipped with flexible, lightweight materials with high breathability. The garments sit close to the body with high comfort in waterproof material. Alpha is initially created for hunters who like clothing with a sportive and tight fit.

## Lynx

**For hunting and leisure.**

Lynx offers a large range of garments for men, women, and juniors. Several garments are treated with Antibite™, which keeps mosquitoes and ticks away and gives a more pleasant hunting and outdoor experience. Our popular Lynx hunting jacket and trousers are now available with an updated design and functionality. Designed with comfort in mind.

## Protect

**For trackers, dog handlers and wild boar hunters.**

Protect is an innovative hunting garment with excellent protection and flexibility. In the Protect series, you will find not only our protective shell trousers and innovative protection liner trousers but also our anorak, dog handler jacket, and dog handler vest with advanced features and high visibility.

## Bull

**Classic garments with modern details.**

The Bull series is a perfect addition to our other range of hunting clothing. Crafted from high-quality buffalo or goat leather, these garments are hardwearing and designed to last for years. All garments have practical details and a smooth surface for easy cleaning.

# INFINITEC

BY SWEDTEAM®

## Infinitec remains when everything else is worn out

Hunting is about overcoming nature's toughest challenges – and that demands gear built to last. Infinitec isn't just fabric; it's a shield against nature's defences. Jagged branches, lacerating rocks, rasping terrain – none of it matters, Infinitec endures. Constructed for ultimate strength and flexibility, this material gives you a hunting outfit that not only withstands extreme conditions but also allows you to move freely when it matters most.

### More than just fabric

A high-quality hunting outfit is an investment – and with Infinitec, you get peace of mind included. We know this fabric can handle extreme conditions, which is why we offer a 5-year warranty on it.

It's our way of proving that Infinitec isn't just tough in theory – it's tough in every step you take through dense forests, rugged terrain, and challenging environments. Infinitec is designed for durability. Our 5-year warranty is proof of our confidence in its long-lasting performance. There are No Holes in our Warranty. The Infinitec fabric will not wear through from normal hunting use, if it does within 5 years we will replace or repair.

THERMAL BOOSTER  
– Smart Insulation That Adapts to the Cold.

Stay warm when it matters most. Thermal Booster is an advanced insulation technology that reacts to dropping temperatures, increasing its heat retention as the cold sets in. This means you get the warmth you need—exactly when you need it. Perfect for hunting and outdoor adventures where conditions can change in an instant. With Thermal Booster, you can focus on the moment, not the temperature.

# Experience the power of invisibility with Desolve®

Desolve® is all about understanding how animals perceive different colours and patterns in their surroundings. The camo breaks up the outline with large macro and micro shapes, creating the illusion of depth, so the subject appears to be a series of small objects spread out across a range of distances. Desolve® camouflage offers a range of patterns that can make you virtually invisible to animals while providing high visibility to humans.

**Desolve® Veil** is the perfect camouflage when hunting in forests and fields. The high contrast and colours make it difficult for your body shape to be distinguished.

**Desolve® Fire** is a unique camouflage pattern with high visibility that makes you invisible to the animal but readily visible to others. With a high contrast in its pattern and colour that the animal has difficulty seeing, you become difficult to detect.

**Desolve® Zero** is the ultimate camouflage pattern in a snowy landscape. Snow-covered environments require more than white-on-white camouflage to convince an animal you are not there. Shades of white against white can still allow the human form to be seen as a solid and, therefore, expose your presence.

Ridge Thermo Overall **100164**  
Crest Pilot Hat **100489**

## RIDGE THERMO OVERALL

Robust and warm hunting overall with 230 grams of insulation. Designed to offer excellent warmth and durability. Reinforced elbows and knees enhance durability, while the NeoNordic® 100 membrane provides waterproof and windproof protection with a 10,000 mm water column. Adjustable snow locks at the leg openings keep the cold out, while long zippers on the legs make them easy to use. The Desolve® camouflage pattern ensures optimal adaptation to natural surroundings.

### TECHNOZONE™

Our Alpha Pro 2 Heat Vest uses the well-known Technozone by I-Warm heating system. The I-Warm heat panels are made of membrane instead of metal wires, which improves all functions: better heat transfer and less power consumption. The panels are foldable and machine washable. The I-Warm system is controlled by the power switch on the vest or by using the app on your smartphone. We use a 3-panel system: 1 panel on the back and two on the upper chest.

Alpha Pro 2 Heat Vest uses the latest technology with the I-Warm 4.0 system. I-Warm 4.0 has an app control that allows you to adjust the heat level on each panel individually.

We recommend wearing your heat vest as close to your body as possible for maximum efficiency. Wear it on top of your base layer shirt as a layer-2 item. If it is very cold outside, wear a fleece jacket on top of the heat vest.

## Keep mosquitos and ticks away with Antibite™

A selection of Swedteam's hunting clothes is environmentally friendly treated with Antibite™. The treatment has a repellent effect that lasts up to 80 washes. Antibite™ is made with a natural substance based on amino acids. The substance is not absorbed by the body, is odourless, and does not cause any side effects. It does not kill insects – it repels them. This means that it has no harmful side effects on humans or animals.

A person wearing a bright orange and yellow high-visibility hunting jacket and pants stands in a snowy forest. A black dog is sitting next to them. The background is a dense forest of snow-covered trees.

# PROTECT

Our Protect family is the ultimate equipment for dog handlers at drive hunts. The garments provide excellent visibility while you're out and come equipped with smart features.

Protect Pro Hunting Jacket **100421**

Protect Pro Shell Protection Trousers **100428**

Protect Reversible Beanie **100458**

# Protect

## PROTECT PRO SHELL PROTECTION TROUSER

Durable hunting trousers, ideal for dog handlers and tracking hunters. Made from a robust material with a Covertex 100 membrane, they are windproof, waterproof, and breathable for all-day comfort. The trousers can be worn on their own or paired with the Protect Liner for maximum flexibility and safety during wild boar hunts. Spacious pockets provide practical storage, while the durable construction ensures reliability in demanding conditions.

<b>Fabric</b> Shell fabric: 100% polyester Lining: 100% polyester Reinforcement: 96% polyester, 4% spandex	<b>Art.no</b> 100428
<b>Color</b> 551 Orange Neon	<b>Size</b> 46-58

## PROTECT LINER PROTECTION TROUSER

Protect Liner Protection Trouser is your extra protective layer for risky hunts, such as wild boar hunting. The trousers are best worn under the Protect Pro Shell Trouser to provide added safety. Our protective trousers feature Conpierce® stretch material throughout, from the waist down to the leg openings. The trousers have been tested and approved for penetration resistance by KWF-Services in Germany, according to the Technical Specification for wild boar protection.

<b>Fabric</b> Shell fabric: 44% Polyethylene, 54% Polyester, 2% Spandex Stretch Panel: 98% Polyester, 2% Spandex	<b>Art.no</b> 100437
<b>Color</b> 950 Black	<b>Size</b> S-3XL

**Feel safe with CONPIERCE®**

CONPIERCE® is made of a protection layer fabric that prevents wild boar tusks from penetrating your hunting garment. We have taken a new approach to ensure maximum flexibility and lower weight by using two separate trousers instead of one. The Protect Liner trouser offers a new stretch function that provides both comfort and protection. The trouser has been tested with approved penetration test values.

**CONPIERCE**

### PROTECT PRO SHELL FEATURES

Our Protect Pro Shell hunting trouser is designed to match our Protect jacket, anorak, and vest. If you want even more flexibility and safety on your wild boar hunting adventures, combine these trousers with our Protect Liner trousers.

- Elastic waist
- Wind- and waterproof with Covertex
- Double leg pockets
- Reinforcement against leg opening
- Ventilation zippers
- Adjustable leg openings

### PROTECT PRO ANORAK

A powerful and flexible hunting anorak made from durable stretch fabric. De- signed for dog handlers who demand high visibility, durability, and weather protection. The asymmetrical zipper on the left side ensures easy wear and ven- tilation, while the Covertex membrane makes it both windproof and waterproof, with excellent breathability to keep you dry and comfortable. It features multiple practical pockets and an innovative waistband for flexible adjustments. Developed in collaboration with one of Sweden's leading dog handlers.

SIZE GUIDE

Sizecharts, cm. Measure Circumference or Length directly on your body. See picture.

1. Head-Circumference

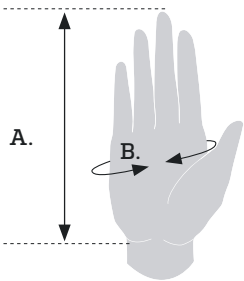

Measure 2 cm above the ears around the forehead.
2. Chest

Measure under the armpits, around fullest part of the chest and shoulderblades.
3. Waist

Measure around the area where you normally wear your trousers.
4. Hip

Measure around your fullest point, approximately 20 cm below your waist.
5. Leg

Measure from the crotch to your ankle bone.

- A. Hand Lenght

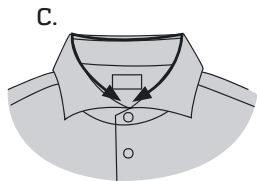

The lenght of the hand is the distance between the wrist and the tip of the middle finger.
- B. Hand Width

Measure the circumference around the palm of its widest point.

Measurement Hat

S	M	L	XL
55-56	57-58	59-60	61-62

1. Head

C. Collar, Length – Measure the collar circumference of your favourite shirt. Make sure to button the collar before you measure. Se picture. Please note. Numbers in the Shirt Collar Chart is the measurement of the shirt, not your neck.
